

Frequently Asked Questions (FAQ) on DSA-JC (Year 5 IBDP)

Dear Students

We thank you very much for your interest in the ACS (Independent) Direct School Admission (DSA)-JC Exercise. It is our hope that this FAQ will help to answer the questions you may have. You may also wish to access the school website: <https://www.acsindep.moe.edu.sg/admissions/dsa-year-5/> for more information.

You may be anxious about the outcome of your application but **there is no need to call the school to enquire about the status of your application**. We assure you that **all applicants** will be duly notified about the DSA-JC outcome: successful students will receive a phone call from the school and unsuccessful applicants will be informed via email by 11 August. Please be informed that the school will not accept any appeals.

ACS (Independent) DSA-JC Committee

A. Questions relating to DSA-JC application

A1. Is the DSA-JC exercise open to students who are not pursuing the Singapore Cambridge GCE O-Level Programme (for example returning Singapore Citizens, Singapore PRs or international (foreign) students studying in an international school)?

DSA-JC exercise is open to Secondary 4 students (only students in non-Integrated Programme are eligible to apply) in Ministry of Education (MOE) mainstream schools and international schools. Hence, returning Singapore Citizens, Singapore PRs or foreigners are also eligible to participate in DSA-JC exercise if they meet the MOE age criteria for admission into Junior College. Participation in DSA-JC is optional. Secondary 4 students who do not want to participate in the DSA-JC will continue to seek admission based on their Singapore-Cambridge GCE O-Level examination results through the MOE Joint Admission Exercise (JAE).

A2. I am presently an Integrated Programme (IP) student in another school. Am I eligible to take part in DSA-JC (Year 5) exercise?

IP students who were admitted through the DSA-Sec exercise will not be eligible to take part in the DSA-JC exercise. DSA-Sec students are expected to honour their DSA commitment and are required to complete their junior college education in their current IP School.

IP students who were posted to the IP school via PSLE results will only be eligible to take part in the DSA-JC exercise if there are extenuating circumstances for their application as they are strongly encouraged to complete and benefit from the customized 6-year IP of their current school. Please seek advice and guidance from your current school before making such an application. Your application forms will not be accepted unless you enclose written documents from your current School Principal and MOE that they do not object to your application.

A3. What is the application procedure for DSA-JC in ACS (Independent)? Do DSA applicants need to sit for any tests?

There are no tests administered for the DSA-JC exercise in the school.

The ACS(I) online DSA-JC Portal will open on 5 May 2026, 11am to 30 June 2026, 4:30pm. Applicants are required to complete an application form which is available online at <https://site1.acsindep.edu.sg/Appls/Y5DSA/ApplicationForm.aspx> and print out a hardcopy for submission to the school. **Please note that your application is only considered valid upon school receipt of hardcopy of completed application form with photocopies of required supporting documents. The deadline for submission of hardcopy of application form and supporting documents at ACS (Independent) is 30 June 2026.**

A4. How many DSA-JC vacancies are there?

The number of DSA-JC vacancies varies year by year at about 22 to 24.

A5. What is the basis of selection for the DSA?

Students are selected based on talent areas that meet the school's requirements. There is no fixed quota for each talent. Students may apply through DSA-JC to ACS (Independent) for the listed specific talent areas. The final selection is dependent on various factors, such as the number and quality of applications received, the school's talent requirements, the availability of suitable candidates, and vacancies. There is no guarantee that at least one offer will be granted for every listed talent area as selection is dependent on these factors.

MALE applicants with the following talent domains will be considered: Badminton, Basketball, Bowling, Canoeing, Cricket, Golf (a Golf handicap of not more than 9), Leadership (school-wide leadership positions such as Student Council, Prefectorial Board, etc), Mathematics, Music Elective Programme (required to offer Music Higher Level as 6th subject in Year 5 and Year 6; and take up a Performing Arts CCA), Robotics, Rugby, Sailing, Science, Shooting, Softball, Squash, Swimming, Tennis, Track and Field and Water Polo.

FEMALE applicants with the following talent domains will be considered: Bowling, Leadership (school-wide leadership positions such as Student Council, Prefectorial Board, etc), Music Elective Programme (required to offer Music Higher Level as 6th subject in Year 5 and Year 6; and take up a Performing Arts CCA), Netball, Robotics, Softball, Squash, Swimming and Tennis.

B. Questions on JAE (Joint Admission Exercise)

B1. What is L1R5 cut-off point to enter ACS (Independent) Year 5 (IBDP) via MOE JAE?

The nett L1R5 aggregate score was 5 for the 2026 MOE JAE (Joint Admission Exercise). The nett aggregate score is computed after deduction of bonus points for CCA and/or both first languages (i.e., English and a Higher Mother Tongue). **There is no bonus point for affiliation.** However, not all 5 nett pointers were posted into ACS (Independent) as JAE posting is based on available vacancies in the school.

Upon release of JAE posting results, students who meet the school's current nett L1R5 cut-off point but not posted to the school can submit an appeal to the school via the school's online appeal portal which is opened during the JAE appeal period.

B2. How many places are available for JAE?

The number of JAE vacancies is in the range of 100 – 110 places.

B3. Where can I get more information on the JAE?

All Singapore-Cambridge GCE O-Level students can visit MOE website - <https://www.moe.gov.sg/post-secondary/admissions/jae> for information on JAE.

C. Questions on IB Diploma Programme (Years 5 and 6)

C1. What are the subjects offered in IB Diploma Programme?

IB Diploma Programme students are required to offer 6 examination subjects (3 Higher Level subjects and 3 Standard Level subjects) as well as complete the Theory of Knowledge (TOK) course, write an Extended Essay (EE) in one of the chosen subjects and participate in the Creativity, Activity and Service (CAS).

Please refer to the document 2026 IBDP Write-up & Subjects Offered for more details and www.ibo.org for more information.

C2. What is the difference between Singapore-Cambridge GCE A-Level and IB Diploma Programme?

Singapore-Cambridge GCE A-Level is structured on three levels of study, namely Higher 1 (H1), Higher 2 (H2) and Higher 3 (H3) and is examination-based like the GCE O-Level.

IB Diploma Programme is structured on Higher and Standard Levels and students are required to offer 3 subjects at Higher Level (HL) and 3 subjects at Standard Level (SL) as well as 3 core requirements: CAS, EE and TOK. The IB diploma subjects are examined by a combination of continuous coursework (Internal Assessments) and written examinations (External Assessments) at the end of the two-year programme. Internally assessed work usually accounts for a minimum 20% of the final grade in a subject.

C3. Does a student who has been exempted from offering Mother Tongue Language be required to offer the Group 2 Language Acquisition in the IB Diploma Programme?

Students who are exempted from Mother Tongue Language will be required to offer a Group 2 Language Acquisition subject: Language B or Language ab initio (beginner’s level). The beginner’s level language available in the school is Spanish ab initio.

C4. How many CCAs must I participate in the school?

All Year 5 and Year 6 students are expected to participate in at least one CCA.

C5. Will a student be allowed to retake an IB subject if he/she has not done well in the IB exam?

Provisions are in place for students to retake the IB subject. However, students must note that subjects’ syllabi may change from year to year, and it is solely the students’ responsibility to prepare themselves for the retaking of the subject. In addition, as a November examination centre, students can only retake the IB subject in November.

Students who are Singapore Citizens and have obtained outstanding results in their Singapore-Cambridge GCE O-Level examinations may be awarded the ESIS (Edusave Scholarships for Independent Schools) by MOE. There is no need to apply for ESIS. All awardees will have a clause stated in their Joint Admissions Exercise (JAE) Form A saying that they have qualified for the ESIS. The clause is as follows: *“You are eligible for the Edusave Scholarships for Independent Schools (ESIS). The Scholarship is tenable at any independent school (IS). You will obtain the ESIS only if you are admitted to an IS through the JAE.”*

ESIS Award amount

If your child is not receiving the MOE Independent School Bursary (ISB), they will be awarded the lesser of the following amounts:

Fresh applications will have to be submitted for each academic year. Students should pay the full amount of school and miscellaneous fees until their application for the MOE ISB has been processed and have received written advice from the school.

MOE introduced the **UPLIFT Scholarship** for Singapore Citizens to recognise the achievements of students from lower income families who have performed well academically or in demonstrated strengths in specific talent areas admitted into Independent Schools. The UPLIFT Scholarship consists of a cash award of \$1,200 per annum to help offset the out-of-pocket expenses for students from lower income households.
