About the Music Elective Programme (MEP)

The MEP is a special programme offered by the Ministry of Education. Its objective is to provide opportunities for academically able students with an aptitude for music to pursue a deeper and more comprehensive study in music. Immersed in a musically enriched and vibrant learning environment, MEP students will benefit from extensive music-making opportunities and rich interactions with other like-minded peers in the programme. In addition, through enrichment activities, the programme connects the study of music in the classroom to its application in the creative industries and, at the same time, encourages MEP students to share their passion of music with the community.

For enquiries on the Music Elective Programme at ACS (Independent), you may contact Ms Poh Ning (Deputy Dean, Music Elective Programme) at pohning@acsindep.edu.sg.
