Dear Parents/ Guardians (Year 5 & 6 students)

## **MOE SEXUALITY EDUCATION IN SCHOOLS - *THE GROWING YEARS PROGRAMME***

1. Sexuality Education (SEd) in schools is about enabling students to understand the physiological, social and emotional changes they experience as they mature, develop healthy and rewarding relationships including those with members of the opposite sex, and make wise, informed and responsible decisions on sexuality matters. SEd is premised on the importance of the family as the basic unit of society. This means encouraging healthy, heterosexual marriages and stable nuclear family units with extended family support. The teaching and learning of SEd is based on respect for the values and beliefs of the different ethnic and religious communities in Singapore on sexuality issues.
2. The goals of Sexuality Education are:
  - (i) To help students make wise, responsible and informed decisions through the provision of accurate, current and age-appropriate knowledge on human sexuality and the consequences of sexual activity;
  - (ii) To help students know themselves and build healthy and rewarding relationships through the acquisition of social and emotional skills of self-awareness, management of their thoughts, feelings and behaviours, development of empathy for others, possession of effective communication, problem-solving and decision-making skills; and
  - (iii) To help students develop a moral compass, respect for themselves and for others as sexual beings, premised on the family as the basic unit of society, through the inculcation of positive mainstream values and attitudes about sexuality.
3. The key messages of Sexuality Education are:
  - (i) Love and respect yourself as you love and respect others;

- (ii) Build positive relationships based on love and respect (which are the foundation for strong families);
- (iii) Make responsible decisions for yourself, your family and society; and
- (iv) Abstinence before marriage is the best protection against STIs/HIV and unintended pregnancies. Casual sex can harm and hurt you and your loved ones.

**STIs (Sexually Transmitted Infections) /**  
**HIV (Human Immunodeficiency Virus)**  
**Prevention Programme in Schools**

1. To reduce the number of STIs reported among youth aged 15-19 years<sup>1</sup>, HPB, in collaboration with the Ministry of Health (MOH) and the Ministry of Education (MOE), developed an STIs/HIV prevention programme titled *eTeens* for students in secondary schools and JC/CIs. The programme aims to raise awareness on STIs/HIV, inform students about ways to prevent infection and discourage risky sexual behaviours. Abstinence and upholding family values are the key messages in the programme.
2. *eTeens* for JC/CI 1 students comprises an assembly talk. (For 2021, the programme will be extended to JC/CI 2 students who have not completed the programme in 2020). It covers information on the transmission modes of STIs, the signs, symptoms and consequences of contracting STIs/HIV, effective methods of preventing infection including abstinence from pre-marital sex, being faithful to one's partner in the context of marriage as well as condom use. *eTeens* is conducted in schools by trained personnel from HPB. A factsheet on the programme, which is available on the MOE website<sup>2</sup>, is enclosed.
3. If you do not wish your child/ward to attend this programme, please complete the form on the next page and return it to the school. For any clarification regarding this programme, please email us at [hpb\\_yhp@hpb.gov.sg](mailto:hpb_yhp@hpb.gov.sg).

Yours sincerely
